PROFILE

With a strong passion for data, analysis, and computing, I have chosen Information Technology as the career path to pursue. I am driven by curiosity and a thirst for knowledge. I aim to grow in a dynamic, creative environment and collaborate with experienced developers to create impactful and meaningful projects that benefit daily life.

PROJECTS

Food Recognition and Classification System 2/2025 - PRESENT
Link github: <https://github.com/MhieulT04/FoodRegnition>

- Developed a deep learning-based system using ResNet (CNN) to classify images of food.
- Designed to assist chefs in identifying ingredients and help users manage daily calorie intake.

NoteApp 10/2024 - 12/2024 -
Link github: <https://github.com/MhieulT04/NoteApp>

- Mobile app built using Java and Android Studio.
- Integrated with Firebase to store user data.
- Allows users to create, update, delete, and organize daily or weekly notes efficiently.

Online News Website 10/2023 - 12/2023
Website read news

- Developed using HTML, CSS, and Bootstrap on Visual Studio Code.
- Designed for delivering daily news, sports updates, and other trending topics.

EDUCATION

NGUYEN TAT THANH UNIVERSITY 2022-2026
Multidisciplinary University
GPA: 3.2 / 4.0
